

DIARY NOTES - 9 June

STATINTL

STATINTL

1. [REDACTED] acquainted me with the Director's desire for a 3 ft. walk between the two stairways on the west side of the loop driveway. [REDACTED] advised me that it would cost \$520 and I have told him to go ahead and have the work done.

2. At the Deputies' Meeting I reported that during the ~~Fiscal Year~~ first year of operating the Administration Building Printing Plant we had operated it at \$101,000 less than it would have cost us to obtain the same amount of printing from the Government Printing Office. H

3. Following the Deputies' Meeting Mr. Dulles, General Cabell, [REDACTED] Kirk, [REDACTED] and I met in Mr. Dulles' office. He expressed his desire that we serve on a committee to be chaired by General Cabell with [REDACTED] as his alternate to critique [REDACTED]. Through this conversation and also through my subsequent conversation with General Cabell it was emphasized that this was not an "inspector general" type of investigation and was not an attempt to find fault with those people who had been responsible for this operation. On the contrary, it was to be a thorough examination of what we had done and how we might possibly have done it better in order to profit from our experience for future operations of this type or subsequent undertakings in this same operation. (On 11 June General Cabell telephoned me to say that he would like for me particularly to have Communications, Security, and Logistics come up with their own critique of the part they had played in this situation so that we could pull it all together and review it in the committee.)
